Technical change usually requires organizational changes as well. These changes include providing resources for technical development and acquiring the support of others in the organization or in outside organizations. Gaining this support requires negotiation, bargaining, and coalition building. Organizational change, then, is a very complex process.

Jan 26, Innovation is a necessity, but the reality is that many organizations struggle to keep up, leaving business leaders scratching their heads as to where they went wrong.

Successful organizations know the significance of innovation in business. Apple is a good example of how effective innovation management can improve your products and scale up your business. "Open innovation is the use of purposive inflows and outflows of knowledge to accelerate internal innovation, and expand the markets for external use of innovation.
